## Program Description:

How can the effective use of investigation undermine a plaintiff's case? Today, technology in the world is ever evolving, day to day in fact, and with that evolution comes new, innovative strategies and approaches to investigate a personal injury claim from the perspective of the defense team. In this presentation, we will explain how to effectively undermine a plaintiff's case, through background checks, surveillance, data, and social media. Learn how the use of these tactics may produce crucial evidence that might affect trial strategy, discovery, and settlement status.
